

EDITORIAL COMMENT.

The total receipts for admission to the Pennyroyal fair were a little under \$6,000.

Two regiments of Tennessee troops in camp at Nashville have been ordered to the front.

Vice President Marshall was formally notified of his renomination, Thursday, at Indianapolis. Martin H. Glynn made the speech of notification.

Edison, the greatest inventor; Henry Ford, the greatest manufacturer; and Mrs. Flagg, the greatest female educator, are all out for Wilson, and they are all Republicans.

The Franklin Favorite warns Democrats that the Third Kentucky District went Republican last year, on the governor's race, by 845 majority. These figures are consoling to J. F. Taylor, who is running against Bob Thomas for Congress.

Capt. Constant Cordier, U. S. A., has been designated to head the new department of military science and tactics at Harvard. The department will be among the first added by the larger institutions of learning in the country under the provisions of the national defense act of last June.

Half million dollars worth of liquors seized in violation of the law at Girard, Ala., was poured into Chattahoochee river. It took three days to break the bottles. Many women helped in the destruction and some cried with joy as the liquors were poured out.

M. Dimitracopulos, who has been asked to form a new Greek cabinet is a supporter of the policy of former Premier Venizelos. He has expressed the opinion that with Rumania in the war, now is the time for Greece to abandon her neutrality. His acceptance would mean war.

J. M. Melan, formerly a well known editor of the First district, who went to Paris, Tenn., got into the winning side of Tennessee politics, and is now statistician in the office of H. K. Bryson, Commissioner of Agriculture. He has become so well posted on agriculture that he can now tell which is the head end of a tobacco worm.

Wilson carried Maine in 1912 by 3,000 over Roosevelt because the Republican party was divided on President. The same year a Republican governor was elected by 3,000, running 20,000 votes ahead of Wilson. In 1914, the Republicans were again divided and Curtis, Democrat, won for Governor. This year, the Republicans are united and Maine, that cast a Republican-Progressive vote 23,000 more than Wilson's vote in 1912, has gone Republican by from 7,200 to 13,000.

ARM BROKEN.

Virginia, little daughter of Mrs. Rosa Hancock, had an arm broken Saturday by falling from a mule. The accident occurred at the home of J. W. Wheeler, near town. The little girl was riding a mule to the barn when she fell off.—Pembroke Journal.

The Madisonville Fire.

The Ross building on Center street, occupied by Ross' grocery and C. W. Lindsay's pool room in Madisonville, burned Monday night, will be remodeled and restored within 90 days. Both occupants are in temporary quarters and will continue in business.

MISS PURSLEY.

Monday morning in chapel Miss Virginia Pursley, expression teacher from Hopkinsville, entertained the High School and Grammar School with a most interesting program of humorous and dialect selections. Miss Pursley will begin her class in expression here next Saturday.—Pembroke Journal.

SAM T. FRUIT OUT FOR JUDGE

Republican Committee Gives Judge Charles H. Bush Opposition.

NAMED HERE THURSDAY

Nominee Is Young Lawyer of This City, 39 Years of Age.

The Republican District Committee of the Third judicial district met in this city Thursday and nominated Sam T. Fruit for circuit judge.

Those present were McJ. Davis, committeeman for Christian; J. F. Ramey, committeeman for Lyon; Burnett, for Trigg, and W. C. Osburn, committeeman for Calloway county.

Capt. McJ. Davis was made chairman and John Feland secretary of the committee.

There was but one candidate and the nomination was put through without a hitch. The nomination came as a complete surprise as Mr. Fruit's name had not been mentioned in connection with the office. Judge James Breathitt recently declined to be a candidate and it was not known that the Republicans were contemplating the nomination of a candidate against Judge C. H. Bush.

Mr. Fruit appeared before the committee and accepted.

He is a native of this county, a son of the late Capt. S. T. Fruit, a federal soldier. He began life as a school teacher but was admitted to the local bar nine years ago. He is 39 years old and is married.

Mr. Fruit says it is not his purpose to make speeches over the district.

The district last year went Republican, but it is hardly possible that Mr. Fruit has been nominated with any hope of success.

HARDWICK-DARCY.

The secret wedding of Dr. Sam Henry Hardwick on Feb. 23, 1916, has just been announced. The marriage took place in New York City and the bride was Miss Florence Darcy, of New Haven, Conn. Dr. Hardwick at the time was in the East to take a course in optometry at Columbia University. Only a very few of their relatives and close friends were let into the secret, that has been guarded for seven months. Dr. Hardwick left this week for New Haven and will return with his wife the last of next week. They will have apartments at the Pennyroyal.

Dr. Hardwick is the only son of Mr. and Mrs. R. C. Hardwick, of Owensboro. He is a former Hopkinsville boy, who has but lately returned from Owensboro to be with the jewelry store owned by his father in this city.

His bride is the daughter of a leading business man of New Haven and is a young lady of culture and charming personality.

PURELY PERSONAL

Dr. G. P. Isbell attended the State Fair in Louisville this week.

Lee Douglas Metcalfe, James West, Jr., and Thomas L. Metcalfe, Jr., will leave next Tuesday for Castle Heights School, Lebanon, Tenn.

Dr. W. M. Rozzell was called to Mayfield Thursday by the illness of his brother.

Will Stirling, after a visit of ten days here, left for Washington Thursday night.

Miss Mabel Wright, of Trenton, Ky., is visiting the family of Mr. L. T. Jenkins, on Canton street.

There are 1,600 birds in the State fair poultry show.

The fruit exhibit at the State fair is the best ever made.

KINCHELOE VISITS HERE

Spent Yesterday Handshaking With His Friends In the City.

Congressman D. H. Kincheloe spent yesterday in the city meeting his friends and looking after his interests. Mr. Kincheloe has made the district a very efficient and popular representative and everybody was glad of the opportunity to congratulate him on his good work. His last speech, on the tobacco embargo, will soon be ready to mail out.

JEFFERSON DAVIS PARK.

C. F. JARRETT.

Gen. Bennett H. Young will arrive in the city by the Illinois Central Railroad at six o'clock Monday evening. He will be accompanied by Gen. Julian Carr, the wealthiest man in North Carolina, and Gen. Littlefield, the largest ranch owner of Texas, whom Gen. Young has gotten interested in the Jefferson Davis Park. They have given very substantial aid to the Park recently, and Gen. Young expects to get enough from them to put up the memorial monument and improve the grounds. He expects the whole thing to be complete by the 3rd of June, next year, the birthday of Jefferson Davis, when it will all be dedicated.

The party will be at the Park next Tuesday morning where a reception will be held by the Daughters of the Confederacy. It is hoped that all those interested will meet at Fairview this morning.

Capt. C. F. Jarrett, a trustee of the Jefferson Davis Memorial Park Association, will be with the visitors, also Dr. E. S. Stuart, the other local member, who lives at Fairview, and lived there when Mr. Davis did.

LOCUST TREE

Serves as Landmark For a Period of Eighty Years.

The old place formerly owned by Henry Ballard on the corner of Clay and Sixth streets, was recently purchased by W. T. Tandy, who has let a contract to J. H. Dagg for remodeling the house and converting it into an up-to-date dwelling. The abstract of the deed for the property goes back to 1836, the starting point of the call being "a locust tree." The locust tree, almost dead but still standing, was found at the point indicated by the deed made 80 years ago.

BARN BURNED.

J. E. Cliborne's barn, north of town, burned Thursday, entailing a loss of about \$1,200.

Methodist Church.

Dr. Powell will preach at 10:45 a. m., on "Is the Church in Hopkinsville Apostolic, and do the four governing principles obtain in her?"

At 7:30 p. m., his theme will be "The conditions of success, in the individual, or in the Church Life."

Sunday School at 9:30 a. m.—J. H. Cate, Supt.

Men's Bible Class—Ira L. Smith, Teacher.

Epworth League at 6:30 p. m.—Emmett Hayden, Leader, and a good program will be given and all members are urged to be present.

BIG CROWD SEES BIRTH OF NATION

The Advance Sales For Last Night Indicated Crowded House.

WONDERFUL IS PICTURE

Two More Engagements For This Afternoon and Tonight.

Manager McPherson was more than pleased with the crowd that saw "The Birth of a Nation" last night, in its first performance at the Tabernacle. They came from far and near and the great picture was shown to a delighted and enthusiastic audience.

There will be a matinee this afternoon and another night performance tonight at 8 o'clock. Hundreds of seats had already been reserved for these performances yesterday and all indications point to big crowds through out the engagement.

The general character of "The Birth of a Nation" is of necessity sober and somber. It represents a critical period in the history of the States. It pictures a time that "tried men's souls" and is not to be approached in levity or with the view that there is "a laugh in every line." It is not a farce; it is not a comedy, it is simply a truthful picture of the times it portrays, and there was little of a comic nature about those times and events. Yet there is comedy in D. W. Griffith's filmed spectacle. Comedy of the most delicate sort, but comedy nevertheless.

There is the typical Southern home where all is good cheer. War's alarms have not yet disturbed its serenity. A Northerner is visiting his old college chum. Youth will be served, and in their playful wrestling and chasing each other about the old mansion and grounds we have pure comedy and the best of good feeling. No matter if within a few months they are to die on the field of battle, enemies but clasped in each others arms.

Then there is the young daughter of the Southern home; almost a hoyden, playful as a kitten, up to all sorts of tricks with her brothers, sister, and their guests. Alas, later we see her tragic end, when to save herself from a fate worse than death, she jumps from the high cliff. Comedy that ends in tragedy, but comedy just the same.

Again there is the scene in "the quarters" where the negroes are "showing off" for the benefit of Northern visitors. There is the shuffle, buck and wing "Mississippi Sawyer," "Turkey in the Straw," and other steps in which the darkeys delighted. Later in the play they have their serious roles.

And so through it all there are bits of the lighter shade of life to be overcast by the somber shade later on. And that is what makes "The Birth of a Nation" such a truthful picture of the times whose life it portrays, for tragedy follows comedy ever. Such is life.

Nearly 100 Additions.

The Record says 78 additions to the three Cadiz churches have followed the Culppepper meeting. The Baptists got 35, the Methodists 27 and the Christians 16. Bethel, a country church, got 12 and the other churches received smaller numbers.

Joe Pugh Dying.

Col. Joe Pugh, former Covington Ky., police chief, and one of Kentucky's best known democrats, lies at the point of death at his farm on Turkey Foot road, just south of Covington, Ky. His illness is pronounced diabetes.

Will Enter Ministry.

Felix Sanders, a young salesman in the store of Jefferson & Street, Cadiz, joined the Methodist church during the recent Culppepper revival, and left last Monday for Elkton to study for the ministry in the Vanderbilt Training School.

USING THE STREETS

Should Pedestrians or Joy Riders Be Given Preference?

It is not generally known that Hopkinsville police are enforcing a rule requiring all vehicles that stop on the streets to stop on that side in which they are headed, even when it is necessary to cross the street to the opposite side of that upon which is located a store to be entered. This is a good rule and is carrying out the well-established highway rule requiring all vehicles to keep to the right. Owensboro has just passed a new ordinance prohibiting pedestrians from crossing the streets diagonally. They must go to the corners and cross at right angles, even when it necessitates more walking and more time. Many cities have ordinances prohibiting loitering on the sidewalks to an extent that obstructs the passage of pedestrians. All of these things are well enough, but the pedestrians are not usually the ones needing the stringent regulations in congested streets. There should be some steps taken to keep unused vehicles from being parked in the streets on busy days. Two circuses are coming this month and if they are not regulated, the vehicles will appropriate every point of vantage along the route of parade, often getting in front of the doors of people who are entitled to use their own frontage. Let us hope that Mayor Bassett will start in time to give the footmen a chance on the narrow streets when the big crowd comes. At least relegate the automobiles and huggies to the side streets, when there is not room for the people.

CADIZ COURT.

Eugene Wilson, who shot and killed Lee Humphries, in Cadiz, last May, was on Saturday given a verdict of guilty of murder and sentenced to from 12 to 21 years in the penitentiary. Wilson's defense was that Humphries had broken up his home.

Lee Lysle charged with shooting Dick Ewell, at Maggie, was acquitted Wednesday.

The grand jury adjourned after returning 19 indictments. Court will probably adjourn today, shortening the term one week.

AT THE STUART HOSPITAL.

Mrs. Wm. Freeman, of Cadiz, wife of the engineer on the Cadiz railroad, underwent an operation a day or two ago.

Miss Elizabeth Cox was operated upon this week and was able to return home yesterday.

Mrs. G. E. Countzler, of Greenville, Ky., underwent a slight operation Thursday.

TRAIN WILL STOP.

The southbound midnight train stopped at Pembroke and Trenton last night and will do the same tonight to let off those who came to see "The Birth of a Nation."

Double Killing

Sheriff J. E. Robertson, of Carroll county, and Lucien Rice, a former rural letter carrier, killed each other at Sanders Wednesday afternoon. The officer had attempted to arrest Rice, who recently had been heavily fined for assault.

Nominated For Congress.

Everett Jennings, formerly of Madisonville, but who for several years has resided in Chicago, being attorney for the State Public Utility Board, received the Democratic nomination for congressman at large in that state last Tuesday, winning by a good majority.

Fatally Injured.

Mrs. Joe Bogard died at Golden Pond, Tuesday, as a result of injuries received in a runaway accident two weeks before. Her ankle was broken and lockjaw followed.

COMBLES IS ON VERGE OF FALL

Great German Stronghold on Somme Beset on Three Sides by the Allies.

FRENCH EDGE IS CLOSED

Heavy Fighting Without Decisive Results Takes Place in Carpathians.

London, Sept. 15.—Beset by the British on the west and the French on the east, the village of Combles in the Somme region of France apparently is on the verge of capture by the entente forces.

Except for reciprocal bombardments and a slight advance by the French by means of bombing attack near Belloy-En-Santerree, south of the Somme, the situation elsewhere on the entire front in France and Belgium remains unchanged.

TEUTONS ADVANCE IN DOBRUDJA.

The Teutonic allies are continuing their advance in the Dobrudja sector of Rumania, according to Berlin and Sofia. Across the mountains in Transylvania the Rumanians have attacked west and east of Herrmannstadt but were repulsed, says the Vienna war office.

In the Carpathians the Russians attacked vigorously the forces of the central powers at Smotric, Ludova and Kapul, storming positions after heavy preparatory bombardment. Their efforts to drive forward, however, were stopped with singular losses, according to Vienna.

HEAVY BATTLE IN MACEDONIA.

On the Macedonian front it is reported heavy fighting has taken place, but with the results beclouded owing to contradictory reports from the different war chancelleries. The Serbs in the Lake Ostrovo region are declared by Paris to have made appreciable progress against the Bulgarians while both Berlin and Sofia report bombardments in this vicinity but mention gains for neither side.

On the front where the Italians are facing the Bulgarians, Sofia asserts that the Italians have been put to flight. In the Doiran region the British have taken a Teutonic position north of the town of Mucukovo. Several Germans taken prisoners and a number of machine guns captured.

TO CONSIDER UNION.

The seventy-first annual session of the Louisville conference of the Methodist church will meet at Franklin, Ky., on September 27 and continue through October 2. This promises to be one of the most important sessions of the conference held in several years and Methodists in the large territory covered by this conference are deeply interested in it and a large attendance is assured of the laity as well as the clergy. The conference takes in all the western half of the state, including Louisville, and has seven districts and about 550 churches.

One of the most important matters to be disposed of is the proposed union of the northern and southern branches of the Methodist church. Since the split many years ago chiefly over slavery, a union has been projected several times but never materialized. Now the prospect seems bright for reuniting the two branches and it is believed the vote in the Louisville conference will be practically unanimous for it.

The presiding bishop will be Rev. W. B. Murrah, of Memphis, one of the most recently elected bishops of the southern Methodist church. This will be Bishop Murrah's first visit to the Louisville conference as a presiding officer.

Good Crop In Lyon.

Eddyville, Ky., Sept. 15.—The farmers of this county are about through housing tobacco. The crop is an unusually large one and the quality is the best within the history of the county.

SATURDAY, SEPT. 16

DEMOCRATIC TICKET

For President.
WOODROW WILSON,
of New Jersey.

For Vice President.
THOS. R. MARSHALL,
of Indiana.

For Congress
D. H. KINCHELOE,
of Hopkins County.

For Circuit Judge
CHAS. H. BUSH,
of Christian County.

For once the Louisville Post, Ow-
ensboro Messenger and the Elizabeth-
town News seem to be bound togeth-
er by a common tie.

Sweeping victories for Gov. Ed-
ward F. Dunne, democrat, and former
Congressman, Frank O. Lowden,
republican, candidates for their respec-
tive parties' nomination for gov-
ernor, were won in the Illinois pri-
maries.

Germany has decided to declare an-
other blockade against England, ef-
fective on January 1. For this pur-
pose a powerful fleet of submarines
is being completed, and plans are be-
ing worked out to make the blockade
a stringent one.

In 1908 Senator Bradley was elect-
ed after a deadlock of nearly two
months by a majority of one, obtain-
ing on the final election the votes of
four democrats, Mr. Charlton, H. S.
McNutt, Eph Lillard and Chris Muel-
ler. Mr. McNutt is now the only sur-
vivor. He conducts a farm near Lou-
isville. Senator Bradley himself did
not live out his term.

Members of the Second Maine regi-
ment of national guardsmen, doing
duty along the Mexican border, voted
in the election held in their State
Monday. The privilege of franchise
was accorded under a law passed by
the State of Maine during the civil
war authorizing soldiers in the field
to vote. The ballots will be sealed
and forwarded to the Secretary of the
State of Maine. Election supervisors
consisted of the three ranking officers
of the regiment.

The point has been raised that train
men who are paid a full day's wages
for less than eight hours, under the
new Adamson law, will have to work
eight hours. This applies to all of the
accommodation crews out of Hop-
kinsville and other towns, who make
two daily runs of from two to three
hours each. The Nashville accommo-
dation men spend practically the
whole day in Nashville and some of
them have had business interests
there to which they devoted six or
seven hours each day.

German newspapers attach pro-
found importance to the conference
now taking place at German eastern
headquarters. Those in attendance
include the German emperor, the im-
perial chancellor, Dr. von Bethmann-
Hollweg, the chief of staff, Field
Marshal von Hindenberg and the first
quartermaster general, von Luden-
dorf, representing Germany; Arch-
duke Charles, representing Austro-
Hungary, King Ferdinand and the
Crown Prince representing Bulgaria
and Enver Pasha, Turkish minister of
war. The conference is considering
new and drastic strategic changes in
the nature of sacrifices, on one or
both fighting fronts.

HURRAH, KIDDIES! THE
CIRCUS IS COMING SOON

"BIG BINGO" Largest of the 41 Elephants With Ringling Bros.

All aboard for Spangleland! Ring-
ling Brothers' wonderful circus trains
are loaded with more juvenile joys
than ever before. There are monkeys
by the cage full, ponies by the score,
dogs by the dozens, clowns by the
car load and peanuts by the peck.

Led by Big Bingo, are whole herds
of elephants with heads full of knowl-
edge and trunks full of tricks, and
more strange animals than one sees
in the picture books. There are four
bands of knowing Shetlands, cap-
tained by Ginger, Robert, Bunting
and Ben, the most famous of all
ponies. There are little black bears
that have learned to skate, run races
on bicycles and travel across great
stages on gaily painted globes. There
are monkeys that ride the spotted
ponies or tease the funny old bears.
Some of them such as Jocko, Jitney
or Toodles are expert acrobats and
turn somersaults backward or for-
ward, from the backs of galloping
Shetlands. One of them has learned
to skip the rope. And the dogs!

They walk on their front legs and
they prance on their hind legs. They
leap over horses and hurdles, do
double somersaults and describe
figure eights through the legs of the
ponies and the baby elephants.

Twenty silken coated setters pose like
statues with snowy white horses and
there are marvelous collies that are
as much at home riding bareback as
are the pretty ladies who jump
through the hoops in the three big
rings. These, of course, are but a
few of the hundreds of wondrous
things that will come with the circus.

Biggest of the many great features
is the fairyland spectacle, "Cinderel-
la." More than a thousand persons
take part in it. There are car loads
of magnificent scenery and gorgeous
costumes. No one can afford to miss
seeing the enchanting "Dance of the
Fairies." The great menagerie,
"Cinderella" and more than two
hours of marvelous circus acts are all
to be seen on Saturday, Sept. 30, in
Hopkinsville.

TO OPERATE TRACTOR

Engineer Should Know Every Part
of His Machine.

Trouble Generally Caused by Two or
Three Persons Handling Engine—
Too Many Are Satisfied
If Machine Runs.

(By E. R. GROSS, Colorado Agricultural
College, Fort Collins, Colo.)

Trouble with the tractor often oc-
curs when the operator can assign no
cause. This is most likely to be the
case when two or three persons handle
the machine and no one is definitely
"the engineer" and responsible for the
machine. It may also happen to an
inexperienced engineer.

The timing of the spark and adjust-
ment of valves are just sufficiently
delicate to cause much trouble if they
are allowed to shift slightly on ac-
count of a loose bolt or are slightly
changed by one operator without the
knowledge of the others.

It is necessary to have one person
who is the engineer and have him as
well informed as possible on his ma-
chine. Every day he should learn
something more about it and its op-
eration, until he can truly say at all
times just how every part is and thus
locate trouble as soon as it occurs.
Real trouble, time-wasting trouble, will
come to such an engineer only through
unavoidable accidents, and these will
be rare.

The expert sent out from the factory
cannot operate the tractor as well as
the engineer who operates it daily,
yet he may be able to find trouble the
operator could not locate. It is the
expert's business to locate trouble, the
operator's, to avoid it. Too many
are satisfied if a machine runs. That
is not enough. Does it run right?
Are all bearings perfectly lubricated
and properly adjusted? Is there pound-
ing, even to the very slightest degree?
Is the valve and spark adjustment
such as to give the highest power? No
one can answer these questions so
well as the operator, if only the opera-
tor knows. You can't get an operator
who knows these things for your trac-
tor, but you should get one who will
know, when he has been on the job
a short time.

CAST ALFALFA BEFORE SWINE

Coburn, Kansas Expert, Urges Farm-
ers to Grow This Profitable Le-
gume—Ideal Stock Feed.

"Cast your alfalfa before swine and
your wife will wear pearls," says the
Kansas alfalfa expert, Coburn, in ur-
ging farmers to begin growing this
profitable legume. "Alfalfa is adapt-
ed to almost any region but must
have a soil sweetened with lime and
inoculated with soil from a success-
ful alfalfa field or sweet clover cor-

ner." Many farmers have failed with
alfalfa because of poor seed and care-
less methods in providing a proper
seedbed. Mr. Coburn points out the
fact that alfalfa is an ideal feed for
horses, cattle, sheep, swine and chick-
ens. Land that grows alfalfa is worth
50 per cent more than land that has
not been made to grow this queen of
legumes, he claims.

USE FOR A RIDGE SMOOTHER

Piece of Timber or Scantling, Attached
to Harrow, Will Prove Quite
Satisfactory.

To keep the common two-section
harrow from leaving a ridge on the
soil, and thus confusing the operator
of the corn planter who is following
the harrow, I make use of the follow-
ing simple device here illustrated,
writes A. Kirkley of Plainville, Ill., in
Farm Progress. Either a 1 by 2 or
2 by 3 timber or scantling may be
used for the drag that is fastened to
the harrow. This smooths down the

A Ridge Smoother.

soil and does not add to the load. It
may be fastened to the harrow by
means of a chain or by a rope. It
should extend about 2 inches on
either side of the harrow. Wire will
not do as well as the rope or chain, as
it will break at the turns. The stick
should drag about 14 to 16 inches back
of the harrow.

UTILIZE ALL WASTE PLACES

Idle Corners Here and There Could
Well Be Set to Trees—Profitable
in Few Years.

On many farms there are waste cor-
ners here and there that could well be
set to trees that would in the course
of a few years be a source from which
to get an occasional bean pole, fence
post or other stick, and finally, if nut-
bearing trees were planted, a fine lot
of nuts would be produced; the bass-
wood by the industry of the bees
would furnish the table with the very
nicest of honey; or if, in the case of
the sugar maple, sugar of which there
is none to equal it could be made, and
during all this time the trees would
be growing into valuable wood or tim-
ber.

"How did the doctor relieve your
son's pain?"
"He gave him an epidemic injunc-
tion."

THE SANITARY
MEAT MARKET

N. Va. St., Opp. Hotel Latham.
PHONE NO. 223.

I have opened a meat market in connection
with my Grocery on Virginia street opposite
Latham Hotel. I am handling the best of Meats
that can be bought and I solicit your trade.

Institutional Treatment of Tuberculosis

means that the patient is given constant attention; that the regime which is found to be best adapted to the case is rightly adhered to; that a resident physician is at hand all of the time, studying the case and adapting the treatment to it; that nursing service is the best. All of these things mean improvement, greater comfort and possible recovery. Hazelwood is operated without profit by the Louisville Anti-Tuberculosis Association. Rates \$12.50 a week. Write for detailed information.

What is The Matter With Kentucky's Wheat Crop?

Last year the short wheat crop in Kentucky when prices were high meant a loss of over \$2,000,000 to Kentucky farmers; and this year's crop is estimated to be over 300,000 bushels less than last.

Thousands of good farmers say that they must either find a way to increase their yields or quit raising wheat.

Until a remedy is found for the Hessian Fly, we must learn to grow good wheat in spite of the Fly, and here's the way one farmer did it:

"During the past three years I have been using some commercial fertilizers and have always realized profits on my investments in them. I used fertilizer at the rate of 200 pounds per acre on a 22-acre field. The application was made with fertilizer attachment on a wheat drill at time of planting. On four strips across the field, in different places, strips were left untreated and the entire field was seeded to clover. The wheat field was in a locality which was severely attacked by the Hessian Fly, and the average yield that year was three to five bushels per acre. Right across the fence from my field was another which had received the same treatment with the exception of fertilizer. Up to June 10th the fly had not attacked my fertilized wheat, but had attacked the unfertilized wheat in the same field to such an extent that the drill rows where no fertilizer was used appeared as wagon roads across the field. At the same time the field across the fence from mine had practically all been destroyed, yielding three bushels per acre. The fertilizer that year meant an increase of at least 15 bushels per acre to me. Now, when I comes to seeding, where no fertilizer was used I failed to get a clover stand, while on the fertilized portion of the field I had the best clover in the neighborhood."

The fertilizer this man used was a high-grade, complete fertilizer, with Readily Available Nitrogen to start the crop off with a vigorous growth in the Fall and develop roots to stand the freezes and thaws of winter; and with further supplies of Nitrogen and Potash to start a vigorous spring growth and develop stalk before the Fly becomes active again.

Good wheat crops have been grown in Kentucky with GLOBE Fertilizer every year for thirty years. The use of a cheap, one-element fertilizer has brought with it a reduction in our wheat yields and is costing Kentucky farmers millions of dollars; and the thinking farmer is going back to a rational system of plant feeding. We are ready to supply you with:

The fertilizer that contains all the elements to feed your wheat crop. The fertilizer that will help you grow good wheat crops in spite of the fly.

Put in your order now and let's raise a bumper wheat crop in Christian county for 1917.

For those who want a "cheap fertilizer," we have it. Get our price before you place your orders for Acid Phosphate and save money.

..NOTICE..

We have purchased the most up-to-date Seed Cleaning Machine obtainable and are in position to clean your clover seed as it was never cleaned before.

This machine has already been shipped from the factory and we are daily expecting to receive it. We want you to bring your seed to us for cleaning. Take a look at this machine and you will like it too.

Let us give you a figure on cleaning your clover seed. Clean seed bring more money and our price for doing it RIGHT is just as low as you will be charged to have it done on a machine which is not equipped to clean your seed properly.

MRS. M. E. GILES CALLED HOME

Sinks To Rest at the End of a Well Spent Life.

Mrs. M. E. Giles, widow of the late Jesse Giles, died at the home of her son, J. Floyd Giles, near Howell, Thursday morning, aged 81 years. Her final decline, after a period of feeble health, began a week ago. The funeral services were at her home yesterday morning, conducted by Rev. M. M. McFarland, and the body was brought here for interment in Riverside Cemetery.

Mrs. Giles, before her marriage, was Miss Mary E. Moss. She was a life-long member of the Olivet Baptist church and was noted for her noble christian character and consistent piety and goodness. Her surviving children are: Mrs. I. J. Gregory, Mrs. Chas. E. Sivley, Mrs. G. R. Cayce, J. Floyd Giles, Thad J. Giles, W. C. Giles, of this county; Manson and Abbott Giles, of Florida, and Mort Giles, of Oklahoma.

423 Lives Saved.

Marshfield, Ore., Sept. 15.—Five last night completely destroyed the Pacific Coast Steamship company's liner Congress, two miles off Coos bay bar. Several vessels which rushed to her assistance in response to distress calls, helped remove her 253 passengers and crew of 170. It is believed that no lives were lost.

Death Warrant Signed.

Frankfort, Ky., Sept. 15.—Harry Garrison, a Campbell county prisoner sentenced to death for assault, will be electrocuted November 17, at Eddyville. Gov. Stanley signed the death warrant Wednesday.

Negroes go North.

Fifty negroes left Clarksville, Tenn., Wednesday for points in New Jersey. 22½ cents per hour for unloading sent a railroad. He confined him where they were offered a wage of freight. The agent said he represented to the idle labor of the city.

A Woman's Problem

How to Feel Well During Middle Life Told by Three Women Who Learned from Experience.

The Change of Life is a most critical period of a woman's existence, and neglect of health at this time invites disease and pain. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Read these letters:—

Philadelphia, Pa.—"I started the Change of Life five years ago. I always had a headache and backache with bearing down pains and I would have heat flashes very bad at times with dizzy spells and nervous feelings. After taking Lydia E. Pinkham's Vegetable Compound I feel like a new person and am in better health and no more troubled with the aches and pains I had before I took your wonderful remedy. I recommend it to my friends for I cannot praise it enough."—Mrs. MARGARET GRASSMAN, 759 N. Ringgold St., Philadelphia, Pa.

Beverly, Mass.—"I took Lydia E. Pinkham's Vegetable Compound, for nervousness and dyspepsia, when I was going through the Change of Life. I found it very helpful and I have always spoken of it to other women who suffer as I did and have had them try it and they also have received good results from it."—Mrs. GEORGE A. DUNBAR, 17 Roundy St., Beverly, Mass.

Erie, Pa.—"I was in poor health when the Change of Life started with me and I took Lydia E. Pinkham's Vegetable Compound, or I think I should not have got over it as easy as I did. Even now if I do not feel good I take the Compound and it restores me in a short time. I will praise your remedies to every woman for it may help them as it has me."—Mrs. E. KISSLING, 931 East 24th St., Erie, Pa.

No other medicine has been so successful in relieving woman's suffering as has Lydia E. Pinkham's Vegetable Compound. Women may receive free and helpful advice by writing the Lydia E. Pinkham Medicine Co., Lynn, Mass. Such letters are received and answered by women only and held in strict confidence.

The Best Book

Of course the best book is the Bible. The man who said the best book was the pocket book, tried to say something smart and failed.

A bank book is a better book than a pocket book. The thief might steal your pocket book, or you might lose it in many ways. It's gone for good, too. But in case of accident we will gladly supply you with another bank book and your funds will always be secured in our bank. Place your dependence on a bank book in preference to a pocket book every time. We will furnish you a nice one free any time you wish to open an account.

ORCHARD GLEANINGS

MULCH SMOTHERS OUT WEEDS

Frequently Means Difference Between Plenty of Berries and None at All From Raspberry.

Oftentimes a good mulch means the difference between plenty of berries and none at all from the raspberries and blackberries. It pays to mulch both for the sake of conserving moisture and the destruction of weeds. The berries should be well mulched during the spring and summer up till the fruit matures. After that the mulch may be removed, since we desire a well-ripened lot of canes for the next season's crop. If the mulch is of straw it should be raked out and hauled away. If the dust mulch has been used cultivation should cease as soon as the new shoots have reached the proper height.

It is practically impossible of late years to produce marketable fruit without some good mulch, either of dust or straw. The straw smothers out the weeds and grass, thus giving the berries a chance.

The dust mulch is the more practical of the two systems. The dust mulch can be quickly prepared after each shower. It allows the evaporation of all surplus moisture in times of two much rainfall. It can be the more easily done away with at the end of the growing season, and gives the better chance to apply fertilizers in the shape of compost or commercial brands. The fertilizer is easily worked into the soil, and is thus the more easily assimilated by the plant. The straw mulch once applied must be kept up, since it forces the feeding roots to the surface. When removed, as it should be each fall, they are left exposed to the sun.

CONTROL OF CURRANT WORMS

Usual Trouble Is That Insects Are Not Discovered Until They Are Nearly Full Grown.

The usual difficulty in controlling currant worms is that they are not discovered until they have been working for some time and have attained nearly full size, when they are hard to kill. The method of control recommended by the New York State School of Agriculture, at Alfred, N. Y., is to spray the bushes thoroughly with arsenate of lead and water during the first warm days in May, being careful to see that all the lower branches are covered with the poison, as this is where the young worms begin to work. Repeat the spray in about two weeks and again in one week if necessary. If spraying has been neglected and the worms appear about picking time, dust the leaves thoroughly with fresh white hellebore. This will lose its strength after a few hours' exposure to the air and will not poison those who eat the fruit.

SLEEVE CHUTE FOR PICKING

Fruit Grasped by Hand Slides Down Cloth Tube Into Bag—Much Time Saved to Picker.

Attached to the wrist of the operator is a sleeve. Fruit grasped by the hand slides down the cloth tube and into the bag. The fruit-picker's other hand is thus left free to grasp a lad

Picker's Sleeve Chute.

der, tree-branch, or other support. Much time is thus saved over the older method of holding a pail or basket with one hand and dropping picked fruit into with the other.—Popular Mechanics Magazine.

WALNUT IS QUITE VALUABLE

Old Tree, Blown Down and Buried in Alluvial Sands, Is Dug Up and Sold for \$1,500.

A good idea of the increase in value of the wood products of our farm wood lots is shown in the fact that an old walnut tree that had been blown down and buried in the alluvial sands along one of the western rivers brought over \$1,500 on the market, though it had to be hauled a considerable distance to the nearest railroad after being sawed into logs.

Applying a Spray.

The spray should be applied by a sweeping or stroking motion of the rod beginning at the ends of the limbs and following down toward the trunk with the spray directed in and down. This will insure the trunk and center of the tree being well covered by the time the outside and top are finished.

Vital Point in Grafting.

One vital point in grafting should be well in mind before a single cut is made, and that is, that the grafts should be set in the parts of the trees where they will grow most vigorously.

Terrible Train Of Troubles.

Lake Charles, La.—Mrs. E. Fourier, 516 Kirby Street, says: "The month before I took Cardui, I could hardly walk. I had backache, headache, pain in my legs, chills, fainting spells, sick stomach, dragging feelings, and no patience or courage. Since taking Cardui, I have no more pain, can walk as far as I want to and feel good all the time." Take Cardui and be benefited by the peculiar herb ingredients which have been found so efficient for women's ill. Cardui will relieve that backache, headache, and all the misery in which you suffer, just as it has done for others. Try Cardui. Advertisement.

GOOD TREE PLANTING HINTS

Farmer Should Be Very Careful to See That Roots Are Kept Moist at All Times.

There are a few general hints in setting a tree which should not be forgotten. Trees are living organisms and they cannot live if their roots are exposed for any length of time to the air or sunshine. So let us be very careful that we keep the roots moist at all times.

High Pressure Essential.

High pressure is essential in spraying apples especially for the post-fall application. At this time the liquid must be forced into all the calyx cups. This necessitates the spraying being applied in coarser drops than for the later sprays.

TWO COMPLETE PERFORMANCES

To Be Given Here By Sun Brothers Shows Thursday, September 21.

You very often hear the remark that all "tented shows are alike," and "when you see one, you see 'em all." This is an erroneous idea, when applied to the present time, latter-day tented institution. Conditions of times have changed all around. Where formerly, the old-time show, presented a company, of say ten or fifteen performers, the show of today gives a programme of displays, that are exploited by a hundred or more performers. Everything else pertaining to the show of today, has radically improved. The tents are larger and better ventilated. They are now so constructed, that they are absolutely rainproof, so in case of wet or stormy weather, the entire show can be given with comfort and ease to performer and patron alike, thus causing no curtailment whatever. The mode of transportation has also improved. The railway rolling stock being such, that all shows can make a hundred mile run, during the night and reach their objective point as early as 6 a. m., and have everything on the show grounds in ample time to start the ceremonies of the day, as early as ten o'clock a. m.

The present day shows are all conducted on a strictly business basis, just the same, as some mercantile business. The elimination of all obnoxious features. Strict adherence of the utmost courtesy to patrons by the attaches and employees. Respectability and refinement in the presentation of all attractions. All of these methods are in vogue with the Sun Brothers' World's Progressive Shows, that are underlined to exhibit at Hopkinsville, on Sept. 21. This show is practically all new for the present tour. All new acts and performers. A coterie of many added novelties in the trained animal line. A bunch of the finest horses ever seen with a tented show. Two complete performances will be given here, matinee and night.

WEIGHT OF WEED TRUSTEES WILL SPLIT SILL BE ELECTED

**Tobacco Fell in Fire and
Caused Destruction of Build-
ing and Contents.**

Tandy Grubbs, who operates a farm belonging to the Dr. John P. Bell estate, near Bell, this county, lost a barn containing about seven or eight thousand pounds of tobacco by fire Wednesday night. One of the sills gave way and split, under the weight of the weed, allowing the poles to fall into the fire with which the tobacco was being cured. The loss is probably \$1,000 or \$1,200. There was no insurance, it was learned.

When you want fire, tornado, life or bond insurance in the Oldest Strongest Companies see H. D. WALLACE, office up stairs, over Anderson-Fowler Drug Store, Corner Ninth and Main.

Office 395, reside. 944.

Jones-Lewis.

Mr. Wm. K. Jones, of this city, and Miss Pearl Elizabeth Lewis, of Earlington, were granted marriage license Wednesday evening.

**Those Who Are Chosen Will
Enter Upon Duties First
Saturday In March.**

On the first Saturday in October an election will be held for the purpose of selecting a trustee to fill the place of the following, whose tenure of office expires on the first Saturday in March, 1917. According to the new law affecting the election of the trustee, the election is held on the first Saturday in October but the newly elected trustees do not go into office until the first Saturday in March unless the incumbent is re-elected and in that case he continues to serve.

These elections are held at the various school houses, from one until five o'clock p. m., under the old regulations. The election officers should be two judges and a clerk and the vote shall be viva voce.

The returns of these elections must be certified to the County Superintendent within five days after the election.

The county board of education is organized on the first Saturday in March each year:

PREACHER ASSAULTED.

Rev. M. F. Ham, an Evangelist known here, was assaulted with brass knucks at Ft. Worth, Texas, the night of Sept. 11, while waiting on the corner for an automobile to take him to church. Frank Anderson, business manager of the Ft. Worth Record, attacked him from behind and a gang backed Anderson ready to assist him. Anderson is a son-in-law of Wm. Capps, whom Ham has charged with being lined up with the liquor interests and a gang of grafters in Fort Worth politics. Anderson surrendered and Capps made his \$25 bond.

J. T. Tooke Dead.

John T. Tooke, aged 70, a leading citizen of Cadiz, died Tuesday. He was a brother of R. J. Tooke, of this city, leaves five children and was a member of the Baptist church.

Catarrh Cannot Be Cured.

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

BEDFORD MURDER CASE IS CALLED

**Stains on Pool Table at High
Bridge Was Not Caused
By Blood.**

Lexington, Ky., Sept. 15.—The trial of Claude Harris and Kurtz Feint, charged with complicity in the murder of Samuel W. Bedford, began at Nicholasville today. The location of the overcoat worn by Bedford the day he disappeared last February and the fact that an analysis by an expert chemist has proved that stains on the pool table at High Bridge, on which Bedford is supposed to have been murdered, are not blood stains, but grease and rust, are two new developments announced today.

Although authorities will not divulge the whereabouts of the coat, it is understood that it is in the possession of a man they have had under surveillance for some time. A subpoena for John Alcorn, of Lee county, who declared that Kurtz Feint told him that he (Feint) was present in the High Bridge pool-room when Bedford was murdered, has been sent to the Sheriff of Lee county, but so far no word as to whether it had been served has been received.

Should Alcorn not show up for the trial today, continuance will be asked by the State until he can be got to Nicholasville.

TO USERS OF CHURCH

HILL MINERAL WATER

I will appreciate it as a personal favor if my customers for Church Hill Mineral Water will place their name on a tag and put their bottles in very plain view, so that my son may be able to find them easily. This on account my being unable to make delivery myself Saturday.

Beer Poured Out.

Princeton, Ky., Sept. 15.—Following a raid made on an alleged "soft drink joint" in Webster county, the authorities there confiscated 172 cases of beer and poured it into the waters of Hammond's creek, near Providence. The beer was contained in 6,192 bottles, aggregating a total of 774 gallons.

LAW MAY BE BOOMERANG

**Dunn Suggests Strict Interpretation of Adamson Law
Might Be Embarrassing.**

Mackinac Island, Mich., Sept. 15.—Samuel O. Dunn, of Chicago, editor of a railroad magazine and who acted in an advisory capacity to the railroad presidents in the negotiations which preceded the passage of the Adamson law suggested in a speech that the eight hour law may prove a boomerang to the brotherhoods. He asserted that the law fixes an eight hour pay day and not an eight hour work day.

Mr. Dunn's remarks were addressed to delegates to the convention of the railroad signal association.

"This law," said Mr. Dunn, does not limit the number of hours that railway employees may work in a day. It merely limits the number of hours that the railroad may require them to work before it pays them a day's wage. In other words it fixes an eight hour pay day and not an eight hour work day.

"It is certain that under this law, if it should be upheld, the railways would have to pay a day's wage for eight hours' work but it is not equally obvious that the law prohibits them from paying any employee in the train service a day's wage before he has done at least eight hours work. It says eight hours, no more no less, shall be the standard. It would appear therefore that under this provision, if the railways should pay any employee a day's wage for less than eight hours work they would violate the law and subject themselves to its prosecutions and penalties."

Many trainmen in passenger service, it is said, receive full pay for less than eight hours work.

HOWELL ITEMS.

Walker Garrett and Frank Gary attended the State fair at Louisville this week.

Rev. C. E. Hutchinson and family and Miss Nettie Lee Petrie were the guests of Dr. W. A. Haynes and family last week.

Miss Lucy Jones has returned to Owensboro where she will teach music. Miss Jones has spent several
